SUMMARY

I am highly experienced at managing the analysis and communication of a wide variety of information. I am an author and educational consultant. I have written and produced for radio and television, and have edited and reported in print and electronic media on such subjects as health, the environment, banking and finance, science and technology, national politics and defense, and foreign affairs. Further, I have evaluated, recommended, and managed millions of dollars in corporate funds supporting domestic and international health, and environmental programs.

Personally, I am able to see projects through conception, organization and implementation. I thoroughly investigate alternatives and analyze different approaches for the best results. I am a strong organizer and a perceptive leader who can listen well and get along with people. I am an effective writer, able to present complex issues understandably and accurately.

EXPERIENCE

The Journal News, White Plains, New York

2000 - 2005

Senior Writer: Environment

Responsible for breaking news stories and developing in depth articles on environmental matters affecting the lower Hudson Valley region. This included nuclear safety, water quality, land use practices, and pollution issues affecting the Hudson River and Long Island Sound.

Freelance Editor and Writer

Automotive Columnist, *Gainesville Guardian/ Gainesville Sun, Fla.*, 2005 – 2016
Automotive Columnist, “Shifting Gears” *The Yonkers Tribune*, Yonkers, NY, 2002 –
Automotive Columnist, *The Dallas Examiner*, Dallas, TX, 2001 – 2016
Automotive Columnist, *Aboutthatcar.com*, 2004 – 2007
The Arlington Morning News, Arlington, Tx. Weekend, City, Business and Copy Editor, April, 1999 – June, 2000.
Editorial Writer, part time, *The Record*, Hackensack, N.J., June – August, 2000.
Contributing writer to Microsoft *Encarta Africana*, Volume II, “African Americans and the Technological Society” (1999), Volume III, 2004;
Writer and Editor, *D Heritage*, a special supplement to *D Magazine (Dallas)*, 1999;
Consultant to Hampton University School of Engineering, co-author of *Engineering 101: A Text Manual*, 1997;
Consultant to the Dallas Zoo, for development of design criteria for a multi-species tiger exhibit and selection of architectural firm, 1995-1996.

Exxon Corp., Dallas, Texas

1990 - 1995

Program Officer, Health and Environmental Contributions

Oversaw \$5,000,000 annually in health, environmental health, and environmental grants to 135 non-profit organizations. The health grants were domestic; the environmental grants were domestic and international. Held the authority to evaluate and reject grants, consider the value of the project itself, its location, cost, and the type of organization involved. In addition, reviewed and made recommendations to senior management on all the environmental grants of the corporation's domestic and international companies.

Created an environmental health category for risk assessment and toxicology projects. Targeted health grants, occupational health programs, and the provision of care to undeserved areas. Reorganized environmental grants and instituted a standardized environmental program worldwide. Developed and managed environmental projects in North and South America, Europe, Asia, Africa and Australia.

Developed and managed multi-year programs of \$1 million or more including:

1. The National Fish and Wildlife Foundation for the development of the international Save the Tiger Fund.
2. The Massachusetts Institute of Technology for the development of a Joint Program on the Science and Policy of Global Climate Change.
3. The University of Wisconsin for the development of the Center for the Study of Human Factors in Complex Systems.
4. The University of Texas Southwestern Medical Center Fund for Molecular Development.
5. The University of Texas MD Anderson Cancer Center in Houston to improve cancer screening and detection capabilities.
6. The Dallas Zoo for the development of exhibition and breeding facilities for the Indonesian and South China tigers.
7. The Fort Worth Zoo for the development of exhibition and breeding facilities for the Asian One-Horned Rhino.

The Dallas Times Herald, Dallas, Texas

1985 - 1990

Editorial Writer and Columnist.

Wrote editorials and columns on foreign affairs, finance and banking, health, science and technology, defense and arms control, civil rights and constitutional law.

Southwest Correspondent :

The Economist magazine, covering social and economic developments.

NewsPro Education Group, Dallas, Texas

1996 - 1997

Consultant to Dr. Samuel G. White, Jr., Dean, School of Engineering & Technology, Hampton University, Hampton, Virginia

Preparation of Engineering 101 text manual and course material for the history and engineering departments on the contributions of African Americans in engineering, with particular emphasis on 19th and 20th century technology, the social context in which inventions were made and their implications for society.

1995 - 1996

Consultant to Dallas Zoological Society, Michael Meadows, Executive Director

Worked with team from the Dallas Zoo and Zoological Society in developing criteria for a new, multi-species, tiger exhibit, examining zoo programs around the country, preparing and analyzing proposal requests for the \$2.6 million exhibit, and participating in the evaluation and selection of the architect.

1989 - 1990

Consultant to Dr. Thomas Cole, President, Clark-Atlanta University, Atlanta,

Assembled and led a team of seven journalists to evaluate, restructure and manage the Journalism Department at CAU and prepare it to meet national accreditation standards. Project, lasting 18 months, included:

1. **Faculty** – Evaluated all faculty and made recommendations for retention, upgrading or dismissal. Developed standards and criteria for faculty research and professional tracks.
2. **Students** – Restructured curriculum and grading structure so students worked in more professional, deadline-oriented environment. Developed programming and instructional criteria for FM radio and cable television station.
3. **Facilities** – Designed computer system for print and broadcast operations, wrote Requests for Proposals for \$2 million computer system and evaluated responses from IBM, Dell, Tandy and Apple.
